DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,546,133 to Temkin et al. in view of the examiner taking official notice.

As per claims 1 and 14, Temkin et al. disclose applying risk-assessment, assigning a scanning priority and scanning the electronic document (col. 4, lines 34-43). The examiner takes official notice that the remaining elements of these claims are well known in the art. It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have modified the apparatus of Temkin et al. to include these features since they comprise the very essence of such an apparatus.

As per claims 2 and 15, the examiner further takes official notice that it is well known to receive an E-mail and inspect it for viruses.

Allowable Subject Matter

Claims 3-13, 16-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
